DOMESTIC | COMMERCIAL | INDUSTRIAL

# ABOUT US

APM Electrical and Data Solutions was established in 2016 by Anthony Paul Montalto, an expert electrician with more than a decade industry experience. The team includes qualified electricians, ACMA-registered master cablers, electrical apprentices and general labourers.

APM Electrical and Data Solutions are known for their outstanding service and thorough expertise concerning all of your electrical needs.

# OUR SERVICES

- **ELECTRICAL INSTALLATION**
- **ELECTRICAL MAINTENANCE**
- **FAULT-FINDING**
- **GENERATOR SOLUTIONS**
- **PIT AND PIPE INSTALLATION**
- **DATA INSTALLATION**
- **REGISTERED CABLERS**

# MISSION STATEMENT

APM Electrical and Data Solutions is founded on honesty and high-quality workmanship. We are committed to delivering professional and reliable electrical services Sydney-wide. APM strives to meet its clients' needs with the highest quality products and industry-leading service. We will work to ensure that our services are tailored to your needs and your expectations are exceeded.

# Electrical Installation

## COMPLETE LED & ELECTRICAL FITTING SOLUTIONS

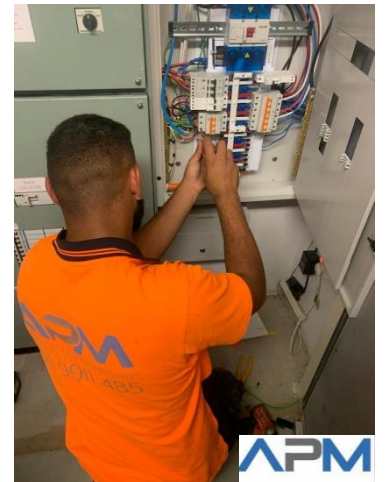

- Full Installations
- Office & Retail
- Bar & Restaurant
- Schools
- Hospitality
- Lighting Design & Installation
- Emergency Lighting
- Government/Public Buildings

# Electrical Maintenance

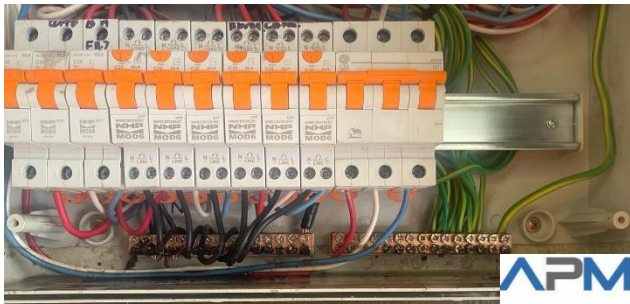

Electrical Maintenance involves the repair of electrical devices or equipment that are out of order or broken. Maintenance is offered at both commercial and residential levels. Examples of electrical maintenance include (but are not limited to):

- Fault finding and repair of fault
- Electrical re-wiring of houses, office blocks and shops
- Repair of tripping switches
- Repair of faulty lights, switches and plugs
- General electrical related repairs
- Assist with power supply issues
- Connection of hot water systems

APM Electrical and Data Solutions delivers premier electrical contracting and maintenance for public sectors and private customers in commercial and residential markets Sydney-wide. We offer short- and long-term maintenance contracts.

# Fault Finding

Fault Finding is the identification of malfunction in electronic components and the investigation of the cause.

The following is a precise list of common causes resulting in circuit faults:

- Earth fault
- Dead short
- Correct protective device in place
- Defective components
- Breakdown of control circuits
- Reversed polarity
- Initial faults on newly installed work
- Phase rotation

Our team of highly trained professionals will investigate to detect any faults and plan to have them resolved in the most time efficient and cost-effective way.

# Generator Solutions

An electric generator is an appliance that converts mechanical energy collected from an external source into electrical energy as the output. Generators are useful devices that supply electricity during a power outage and prevent the disruption of daily activities in both private and business operations. Generators are available in different configurations for use in different applications. Our skilled electricians will advise you on all generator technology matters, help you to choose the system that's right for you and will offer you comprehensive installation and service.

- Home stand-by generator
- Generator services
- Generator re-fuels
- Have power when you need it most!

# Pit & Pipe Installation

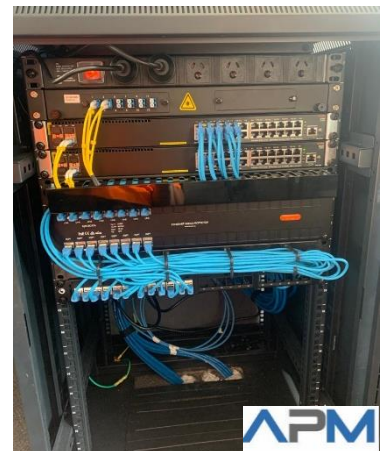

Pit and pipe installation involves digging trenches beneath the ground to install conduits under the surface. Conduits are laid through trenches so that they can offer a variety of electrical and communications services to your home, office or building. These services provide each house, building or structure with electricity to power appliances safely.

# Data & Communication

APM employs ACRS accredited master cabling that provide data solutions in electrical, data and fibre-optic communications.

We provide a complete service offering:

- Systems Integration, Installation and Commissioning Construction
- Fit-out
- Rollout
- Fibre Optic Solutions
- Structured Cabling Systems
- Electrical Services
- Access Control/Security and CCTV
- Data Installations and Test Reports

# PROJECTS

APM Electrical and Data Solutions values its relationship with clients-residential, commercial, and industrial. We take pride in our ability to respond to your electrical needs in an efficient and cost effective manner.
